# Antibacterial Alcohol Hand Sanitizer

80% Ethyl alcohol-based hand sanitizer with advanced skin conditioning agents

## Product Features

- Contains 80% v/v USP Grade Ethyl Alcohol for maximum germ-killing strength
- Formulated with advanced skin conditioners and moisturizers to leave hands feeling soft and hydrated
- Contains bittering agents to safeguard against the product being consumed orally. A key benefit of these bittering agents is that they act to train/remind users not to touch their face/mouth with their hands, not to eat with unwashed hands, or lick their *fingers*
- Controlled evaporation rate allows for Health Canada's mandated 30 second minimum contact time and allows the alcohol in the hand sanitizer to effectively kill bacteria.
- Product has ideal lubricity characteristics to allow for proper and easy coverage over hands and between fingers

## Product Properties

Appearance	Clear Colorless, viscous liquid
Odor	Characteristic alcohol
Specific Gravity, at 20°C	0.84-0.87 kg/L
Ethyl Alcohol content	80% v/v
pH, at 20°C	5-9
Foam	Non-Foaming

## Drug Facts

Active Ingredient	Purpose
Ethyl Alcohol 80%v/v.....	Antiseptic

**Uses** Antibacterial cleanser. For personal hand hygiene to help prevent the spread of bacteria.
